with Mrs. DeVine

I am so happy to be your art teacher! I also teach at Mary Walsh School in Springfield. So, I really have the best job ever! Online art will be weird, crazy, fun and so exciting! We are all going to be creating and learning in a new way. Oh, how our brains are going to grow! When you learn something new you are using a new part of your brain. We will be learning about the different elements of art.

About Mrs. DeVine

I went to college (UMASS Dartmouth) and studied graphic design. I worked as a designer until I had my two kids. Then, I when my kids started going to school, so did I. I was first a paraprofessional and I have been teaching art since 2007 and it gets better every year.
